Advisory - the following lyrics contain explicit language:

Sex... Sexual
Sex... Sexual
Sex... Sexual
Sex... Sexual Tonight we share a night of ecstasy and sweet romance
I will make you feel so special if you give me half a chance
I respect your femininity oh so much
So prepare yourself for a night that can only be described
as sensuous... it will be repeat chorus We have been together for some time but now I feel
Your resistance to my persistence intensifies your sex appeal
I perspire with desire when I see your naked skin
This erotic moment brings up everything within oh baby repeat chorus You are mine... baby I am yours
I am yours, hey you are my baby
You are mind and I think it's time
Come here baby... shhhh... don't say a word
Let your emotions do all the talking
Can you feel it
Can you feel it ...I can feel your love baby
Can you feel it... baby oh baby yea, yea, yea
Can you feel it, feel it, feel it, feel it
You look so good, baby
You don't have to go repeat chorus
