

# Rain Love

## Peter Cetera

Rain, rain love, rain, rain love  
Rain, rain love, rain, rain love Threw out my old raincoat, set sail without a boat  
For places somewhere far beyond my dreams  
As the sky came pouring down, I lay down on the ground  
Like I was dreaming, I let the feeling wash all over me Rain love covered around me  
Rain, rain love finally found me  
This time you're gonna recognize  
One drop will open up your eyes, rain love It's the color of every sky, it's the way to change the tide  
When the world is crumbling down on you and me  
It's the calm that lifts the storm, it's the promise that keeps you warm  
When you don't understand, just touch the guiding hand that comforts me Rain love Takes this lot to make you  
realize  
No greater love could ever fill the sky Rain love
