Mesh Mask

True Widow

I've got a mask I wear at times
I think you've seen me wearing it
It's all made of wire mesh
It's got a face painted on to make me look like someone else
We dance so close
We dance so close
We dance so close
I can't say no
And underneath I take up any other space
With another hidden face beneath the traces of my own
I hope you know me and can put me in my place
We dance so close
We dance so close
We dance so close
I can't say no
