

# Mesh Mask

## True Widow

I've got a mask I wear at times  
I think you've seen me wearing it  
It's all made of wire mesh  
It's got a face painted on to make me look like someone else  
We dance so close  
We dance so close  
We dance so close  
I can't say no  
And underneath I take up any other space  
With another hidden face beneath the traces of my own  
I hope you know me and can put me in my place  
We dance so close  
We dance so close  
We dance so close  
I can't say no
