

Strange We Should Meet Here

Idiot Pilot

The phone, we wake up
We're friends for a time, friends for a time
I will be so glad to call you mine
So glad to call you mineThe valley we love
We laughed a thousand times
We died a thousand times
Ask you to give with all of your time, with all of your timeCome on, I killed you anyway
You remind me
Come on, face the gun
Of someone I used to knowCome on, I killed you anyway
You remind me
Come on, face the gun
Of someone I used to know[Incomprehensible]A moment we die
Our souls will re-align, a murder so divine
We'll heaven hell
Everything is fine, everything is fineCome on, I killed you anyway
You remind me
Come on, face the gun
Of someone I used to knowCome on, I killed you anyway
You remind me
Come on, face the gun
Of someone I used to know[Incomprehensible]Come on, I killed you anyway
Of someone I used to know
Come on, face the gun
You remind meCome on, I killed you anyway
Of someone I used to know
Come on, face the gun
You remind me
