# Neutron Wireless Crystal

## Swimming

Take a chance and get together
In the storm in town
Where your enemies and friends go 'round
A broken merry-go-roundI'm lying on the floor
To feel like I'm connected
I'm flying all around
It feels like I'm projectedI'm lying on the floor
To feel like I'm connected
I'm flying all around
It feels like I'm projectedOh, and it's magic, magic
And you feel like you'll never die
When it's time to love
And be lovedAll the lights will blink and brighten up
The darkest skies
And the compass in your heart will spin
Hello to everythingI'm lying on the floor
To feel like I'm connected
I'm flying all around
I feel like I'm projectedOh, and it's magic, magic
And you feel like you'll never die
When it's time to love
And be lovedOh, and it's magic, magic
And you feel like you'll never die
When they're time to love
And be lovedFalling, falling, falling
Keep falling down
Falling, falling, fallingI'm lying on the floor
To feel like I'm connected
I'm flying all around
It feels like I'm projectedI'm lying on the floor
To feel like I'm connected
I'm flying all around
It feels like I'm projected
