Manual

Hot Water Music

go your own way rid lies burn the stitches that held your eyes shut vacate and wonder rid time take off reminders and strive to shine you said you've got it and i believe that you've got it and that you'll survive our hearts have exchanged the gifts that carry us over the walls that blind us the walls that bind us the walls that stand too tall to conquer alone bring back your wisdom to trade bring back the words you've saved teach me so that i may teach on we reach we learn we don't we burn on the inside as well as the out we search to solve how to not dissolve on the inside as well as the out so you're at war with yourself with space and time you'll find a breakthrough if you don't lose what's real you have our blessing clear your conscience and ride away
