We Could Be Together

Loudness

I got your real love, baby
I got everything on my side
I got your real love, baby
I wanna keep you satisfiedCan't you see I'm so true?
I'm crazy for you
So spend your life with me
That's all you can doWe could be together
We could be togetherI want your real love, baby
I'll get you everything that you need
I want your real love, baby
I'll try to keep you satisfiedCan't you see I'm so true?
I'm crazy for you
So spend your life with me
That's all you can doWe could be together
We could be together, oh yeahI don't wanna hurt you
You don't need the pain
Don't you know that I need to
Love you again?I got your real love, baby
I got everything on my side
I got your real love, baby
I wanna keep you satisfied, oh yeahI got your real love, baby
I got your real love, baby
I got your real love
I got your real love, baby
I got your real love
