

Side Effects

Future

You pay my team
Hold down my crew
You wash my clothes
You buy my grocery
You stay up late
You say whatever
That's whatever it take
You fucking slick stuff
It ain't hard to tell
Answer to those feelings
Never read my mail
Baby, I suppose I take you serious
Keep talkin' dirty, I love to hear it 'Cause I never take nothin' from you
You deserve it all
Just tell me what it cost
Ball 'til we fall
And we run to the finish
No screens, no catch
If I die today it's yours, if you want it all,
I give it to you no side effects,
No side effects
No side effects, I give it all to you
No side effects, no side effects
No side effects My name stay tatted, across your heart
I give you pleasure, you play your part
I smoke too much, say you don't mind
At least you make, make up for your time
You fucking superstar, you fucking up
Ain't bout that talking, hey girl, are you sure?
Give ya a lil something, never take it back
Ain't no side effects, remember that 'Cause I never take nothin' from you
You deserve it all
Just tell me what it cost
Ball 'til we fall
And we run to the finish
No screens, no catch
If I die today it's yours, if you want it all,
I give it to you no side effects,
No side effects

No side effects, I give it all to you
No side effects, no side effects
No side effects
