Endzeit

Die Firma

Nothing, just nothing, nothing will wipe this heart out
And no one, just no one, no one will break this frontline
We are, we are, we are the final ones
We are, we are the, we are the final resistanceWe're fighting to the last
Driven by your hate
Awoken us
No one will surrender
A storm will break the silence
This storm will break the silenceNothing, just nothing, nothing will wipe this heart out
We are, we are the, we are the final resistanceThis vengeance is justice
And justice will be done
your end is our triumph
And the day will come
A reign of terror, a life of horror
Nothing will remain
A promise to the fallen
We make them feel our pain
A promise to the felons
You'll never rise againWe take it back
We take it all back
We take it back
We take it all backThis vengeance is justice
And justice will be done
Your hate has so betrayed us
Everyday we come
A promise to the fallen
We make them feel our pain
A promise to the felons
You'll never rise againNothing, just nothing, nothing will wipe this heart out
And no one, just no one, no one will break this frontline
We are, we are, we are the final ones
We are, we are the, we are the final resistance.
