Ryan

Eyes Set to Kill

Was that last drink a trigger of a gun?
Fall asleep cold.
Well I guess life is never any fun with no one to hold.

Will you be there in the morning?
Will you be there in the morning?

Did you think alcohol would patch you up?
Ease all the pain.
Well I guess we'll never know we'll never know what could have been today.

Will you be there in the morning?
We told you it's worth the fight.
Will you be there in the morning?
We told you it's worth the fight.
We told you it's worth the fight.

Catch your breath,
You're only 21
You wont be there in the morning.
Catch your breath,
You're not the only one.
Catch your breath,
You're only 21.
You wont be there in the morning.
You're not the only one.

Will you be there in the morning?
-Will you be there in the morning?
Will you be there in the morning?
We told you it's worth the fight.
Will you be there in the morning?
-Will you be there in the morning?
We told you it's worth the fight.
We told you it's worth the fight.
