

Longroad

Britny Fox

Pulled up in the sunrise, your hometown
Gettin' packed and ready, your big city crowd 'Cause these long and winding roads, roll on through my head
And now this song we sing cries loud for you 'Cause it's a longroad, headin' your way
It's a longroad, a song we'll play
And we traveled many miles, just to see you smile
'Cause it's a longroad, it's a longroad See so many faces, time after time
Show me how you're feelin', tonight's your night 'Cause these long and winding roads, roll on through my head
And now this song we sing cries loud for you 'Cause it's a longroad, headin' your way
It's a longroad, a song we'll play
And we traveled many miles, just to see you smile
'Cause it's a longroad, it's a longroad, a longroad 'Cause these long and winding roads, roll on through my head
And now this song we sing cries loud for you Ohh, it's a longroad, headin' your way
It's a longroad, a song we'll play
It's a longroad, every night and day
It's a longroad, ohh, yeah Longroad, headin' your way
It's a longroad, a song we'll play
It's a longroad, every night and day
It's a longroad
