Love Can Find Its Own Way

Jimmy LaFave

When I was a little boy
You came walking down my street
I was only ten years old
And my heart fell at your feet
And now you've grown and grown and grew
Honey, look at you today
Ain't it funny how love can find its own wayBecause I never gave up hope
I would see you once again
So imagine my surprise
When you came walking in
And our eyes met across the room
And there was nothing left to say
Ain't it funny how love can find its own wayAin't it funny how love makes you feel so good
Just like they always said that it would
Make you half-crazy
Turn your head around
Hard to keep your feet
Standing on solid groundChorus
