

Augustine

Nevertheless

We watch the ships coming from across the bay
I watch your lips move and wondering what to say

That was good enough
That was strong enough
That was good enough for you

(Chorus)

Love is an ocean
Caught in a storm
Breaking down walls
And taking it's form

The farthest from safety
Closest I've come
As we come undone
Augustine

We dangled our feet over water from the wall
I took your hand ready for the fall

I'd fall fast enough
I'd fall hard enough
I'd fall fast enough for you

(Chorus)

Love is an ocean
Caught in a storm
Breaking down walls
And taking it's form

The farthest from safety
Closest I've come
As we come undone
Augustine

Don't say a word
I hope that you know
There's truth in the way that we feel
The current is strong

I'll never let go of you

We'd fall fast enough
We'd fall hard enough
We'd fall sure enough
And never look back

(Chorus)

Love is an ocean
Caught in a storm
Breaking down walls
And taking it's form

The farthest from safety
Closest I've come
As we come undone
Augustine
