

Feel Like Moving

Luciano

Got to leave town, got to get out of here
Here and now pack my bags already
Sunday morning's coming and I'm ready to go
Say goodbye to the neighborhood
Even if they could they'd never understood You see I'm sick and tired of staying away, oh yeah
So I've made up my mind
I won't waste no more time, I won't linger behind
Got to get away, yes, I just feel like moving
On and on and on, yeah, oh well I've been thinking about sweet river
Diving off the bridge in my woolen shorts
Contemplating how my life would be
Living like the wind that blows about the sea Yes, I'm sick
I'm tired of staying away, oh yeah
So I've made up my mind
I won't linger behind, I won't waste no more time Got to get away
I just feel like moving
(Moving along)
Moving along on and on
I just feel like moving on and on and on, oh girl The spirit in me keeps telling me
By all means I must be free
Taunting me, haunting me
I got to find tranquility Got to get away
I just feel like moving on and on and on
I just feel like moving on and on and on, yeah Thirty, forty, forty five and fifty
I will be cruising gently on the Kings Highway
I like the vibes in my 1985
Listening reggae music on the radio I'm leaving behind the saddest of times, oh yeah
I'm going to find a peace of mind, oh yeah
I just feel like moving on and on and on
Yes, I just feel like moving on and on and on
I just feel like moving
(Moving along)
