The Cell

C2C

You're talking about me, cos I'm front page news
Flicking the pages baby and feeling for clues
You're talking about me, and it's all over the web
The stories you're spinning baby, I've gone to my headI'm hot gossip I'm on your lipsYou're talking about me, yeah and my heart beat speeds
Keep dishing the dirt now baby I never was real clean
You're talking about me, and your pants are on fire
Your sources are nasty baby and you're a liar liar!I'm hot gossip I'm on your lipsYou're talking about me - ain't that the truth!
Spreading your rumours baby cos you want to seduce
You're talking about me, and it's not all nice
You don't even know me baby oh but that's alright cosI'm hot gossip I'm on your lips
