Reich Of Phenomena

Atrocity

It was the mighty empire, fallen from grace
The ten glorious kingdoms of the superior race
Created by ancient Gods, dominion in days of yore
Rulers from the unknown land, not found anymoreReich of Phenomena, kingdom of the damned
Where nations were born and mankind's fate was sealed
Reich of Phenomena, epoch of the damned
The fall of man was the downfall in the endThe island far away, to where no man has gone
Places all over the world, meant to be the one
Inscriptions of the past, forever they are lost
Kings from the unknown land, reigned from coast to coastReich of Phenomena, kingdom of the damned
Where nations were born and mankind's fate was sealed
Reich of Phenomena, epoch of the damned
The fall of man was the downfall in the endThe old world power kept the occult inside
From the ancient times into the new age
You, do learned your liesReich of Phenomena, kingdom of the damned
Where nations were born and mankind's fate was sealed
Reich of Phenomena, epoch of the damned
The fall of man was the downfall in the end
