

Make It Better

Hermitage Green

I would die for you... ..lay my heart before you. I ask God for you, at first sight I adore... ..You changed everything, angel on a family chain.
I can't live knowing... ..one wish is to feel your face.
I... give to you my life... we'll make it better.
I... give to you my life... we'll make it better. Woah... Woah... Whenever you need it... take my life we'll make it better.
Woah... Woah... Whenever you need it... take my life we'll make it better.
When the world lives large... step back and hold your ground.
Don't...let... fear grip you... when love is all around...
Scorching flames I've known... can't touch the warmth you bring.
Light the darkest night, sun, stars and everything.
I... give to you my life...we'll make it better.
I... give to you my life...we'll make it better.
Woah... Woah... Whenever you need it... take my life we'll make it better.
Woah... Woah... Whenever you need it... take my life we'll make it better.
Hold my hand stay away from the dark, my one last I leave it all to you.
I close my eyes, take your place here's my heart.
I... give to you my life... take my life we'll make it better.
I... give to you my life... take my life we'll make it better.
Woah... Woah... Whenever you need it... take my life we'll make it better...
