Get Up

PureNRG

When your world gets
A little too crazy for you
You're so paralyzed
Can't seem to find your strengthWhen you're wondering
If there's any hope for ya
Let me tell you
About how things can changeLove will reach down and
Give life to your weary soul
Before you know
(Before you know)You'll get up, take your sadness
Get up, all this madness
Get up, move on past this
Just get up and just get on upGet up, take your worries
Get up, spinning blurry
Get up, you better hurry
Just get on upEvery moment is a chance for you
Your opportunity to find a place
In the presence and in the freedom
And in the power of this wonderful graceLove will reach down and
Give life to your weary soul
Before you know
(Before you know)You'll get up, take your sadness
Get up, all this madness
Get up, move on past this
Just get up and just get on upGet up, take your worries
Get up, spinning blurry
Get up, you better hurry
Just get on upGet up, everybody hit the floor
Get up, everybody move your soul
Get up, I don't know what you're waiting for, woo
Come upGet up, you don't have to hurt no more
Get up, pick up all yourself and go
Get up, just let the music take control
Just get on up, just get up, get upThere's no spirit to broken apart
No too hardened, unchangeable heart
Love can reach you wherever you are
And lift you higher, and higher
And higher, and higherTake your sadness
All this madness

And move on past this
Just get up, just get on upGet up, take your worries
Get up, spinning blurry
Get up, you better hurry
Just get on upGet up, take your sadness
Get up, all this madness
Get up, move on past this
Just get up, just get on upGet up, take your worries
Get up, spinning blurry
Get up, you better hurry
Just get up, get upJust get on up, everybody hit the floor
Get up, everybody move your soul
Get up, I don't know what you're waiting for, woo
Just get up, get up, get up
