

Miss You

Between The Trees

I miss you more than you even know, more than you probably care
More than I ever show to you, my dear at least in words alone
And how does it make you feel to hear me say that I miss you?
And how does it make you feel to hear me say, ooh That I, I wanna stand next to you for a while?
I, I wanna hear you say I miss you more than you even know, more than I seem to share
And where would I go if ever you weren't there?
And how does it make you feel to hear me say that I miss you?
And how does it make you feel to hear me say, ooh That I, I wanna stand next to you for a while?
I, I wanna hear you say, yeah Oh, oh, oh, I wanna stand
Oh, oh, oh, I wanna stand
Oh, oh, oh, I wanna stand next to you, next to you Oh, oh, oh, I wanna stand
Oh, oh, oh, I wanna stand
Oh, oh, oh, I wanna stand next to you, yeah And I, I wanna stand next to you for a while
I, I wanna hear you say
