

Whatever It Takes

[Belinda Carlisle](#)

I've seen the rain fall down and wash away a town
I've seen strong hearts easily broken
Why do some things survive while others live and die?
How can someone let their love go unspoken? I couldn't stand to see us end up that way
Just another tragedy
Every night I promise another day Whatever it takes I will be there
By your side baby anywhere
When you're lost and alone, I'll bring you home
I will come through for you Whatever it takes, whatever you need
Whatever comes down between you and me
When the road gets rough, you've gotta trust
I will come through for you, whatever it takes I opened every door, I always wanted more
I didn't have much to believe in
I searched the world for you, I found what's really true
It's your love that gives me a reason Baby it's only you who can free my heart
I can't do it on my own
It seems like just yesterday I was in the dark Whatever it takes I will be there
By your side baby anywhere
When you're lost and alone, I'll bring you home
I will come through for you, whatever it takes Baby it's only you who can free my heart
I can't do it on my own
It seems like just yesterday I was in the dark Whatever it takes I will be there
By your side baby anywhere
When you're lost and alone I'll bring you home
I will come through for you Whatever it takes, whatever you need
Whatever comes down between you and me
When the road gets rough, you've gotta trust
I will come through for you, whatever it takes La la la la, whatever it takes
La la la la, whatever it takes
La la la la, whatever it takes
