Into Space

Eskobar

Some go into space
To find another race
Some say it's a waste
And some, they rest their caseI've got love in my own place
To me its a waste, this chase
I find no trace, in you, in youYou gotta take your time, free your mind
Leaving you and me behind
Don't you ever cross that line
To where you can't let goYou have to open up, step inside
A universe within you'll find
You don't have to travel skies
To be aware and knowSomewhere in the haze
I remember a kiss with a taste
Remember the days
When this was a beautiful placeAnd through this journey in space
It's me who got me amazed
I found no values to praise, in you, in you
