Seduce Me

Roxette

Don't ever say you do
Don't ever say you want to make me shine
You keep your mystery, don't ever try
To be my guiding light
Mmm...
Don't ever say you care
Don't follow when I'm here and everywhere
I'm blinded by your looks but there's a scent
Of heartache in the air
In the air...
Hey you!
Walk out through that door
And into that dream
Where I met you before
Oh oh...
Babe, you seduce me
You take my heart and use me
My feelings all run wild
When you seduce me all the time
Don't ever call me up
I never wanna hear your voice again
Oh lay your pretty hands on someone else

Somebody who don't know you well
Know you well...
Hey you!
Your sweet sweet talk can't stay
And get back to that dream
Let's both keep it that way
Hey hey...
Oh you seduce me
You pull my heart and use me
And I keep running blind
When you seduce me all the time
Mmmm... get back to that dream
Let's both keep it that way
Hey hey...
Tell me once again...
You seduce me

You take my heart and use me
My feelings all run wild
When you seduce me all the time
When you seduce me all the time
You seduce me all the time
You seduce me...
