Out To Get You

Bloodsimple

She's like the young white rabbit with bloodshot eyes
Dreaming of another place inside its mind
Well, it's a lonely place that houses our suffering
A piece of pain
So what would you do for 15 minutes of fame
Out on your own?Some friends are out to get you
Some out to do you harm
They'll tie you up and shoot you full of sin
Some friends are out to get you
Some out to do you harm
They'll tie you up and shoot you full of sinShe's been chasing dragons for endless nights
So afraid to live and yet afraid to die
Well, it's a lonely place that houses our suffering
A piece of pain
So what would you do for 15 minutes of fame
Out on your own?Some friends are out to get you
Some out to do you harm
They'll tie you up and shoot you full of sin
Some friends are out to get you
Some out to do you harm
They'll tie you up and shoot you full of sinAnother night
Just another nightSome friends are out to get you
They're out to do you harm
They'll tie you up and shoot you full ofSome friends are out to get you
Some out to do you harm
They'll tie you up and shoot you full of sin
Some friends are out to get you
Some out to do you harm
They'll tie you up and shoot you full of sinShoot me full of sin
Shoot me full ofSome friends are out to get you
They're out to do you harm
They'll tie you up and shoot you full of sin
Some friends are out to get you
They're out to do you harm
They'll tie you up and shoot you full of
