

# Living in Lye

## Red Fang

Been living in lye  
Staying low  
These words are a lie  
Like a knife down my throat  
Killing myself  
Take control  
Locked in a cell  
Don't like this inside me No matter what you do  
It's gonna get you anyway  
No matter what you think you're mine  
Don't care what you say  
No where no way you get out  
No matter what you do you're mine In love with the lie  
So sick down below  
No love for the lie  
It wants to destroy  
Wasting alone Burned out, no control  
Fuck you to that lie that's living inside me Chorus as above Wasting this day  
Wasting inside  
Fade away  
It's not in me  
Fade away  
Deny You know you just can't slow down  
You know you just can't slow down  
You know you just can't slow down  
Dig your six feet down You know you just can't slow down  
You know you just can't slow down  
You know you just can't slow down  
Dig your six feet down
