

# San Jose

## The Mavericks

Star lit skies, Texas eyes  
Looking down on me tonight  
Across the street, strangers meet  
Hoping to catch a rising star  
You and I will stay up and wake up and then  
One more day, come what may at the San Jose  
Spend the night, become the night  
You never run out of things to do  
Moonlight swims, midnight sins  
And rooms for a secret rendezvous  
You and I, will stay up and wake up and then  
One more day, come what may at the San Jose  
One more day, come what may  
Steal away at the San Jose
