

# Live

## Lenny Kravitz

We're gettin' it straight in 98 y'all  
Ah, ooh love, yeah  
Tired of all the talk they're talkin' all over this town  
I'm tired of all the negativity that's goin' 'round  
We focus all our energy on things that bring us down  
Let's put our voices all together, make a joyful sound  
Do just what you wanna do  
Oh, let the sun come shining through  
Everybody live, yeah, live  
Now, yeah, yeah, yeah  
Everybody live, sing it [Incomprehensible] now  
Everybody live, you got to do it like you can now, yeah, yeah  
Life is the most precious gift, I thank the Lord for mine  
I hope you feel the same my friend, I hope you're feeling fine  
The choice is yours, your destiny is waiting on the line  
You better get busy with livin' or you're busy dyin'  
Do just what you wanna do  
Oh, let the sun come shining through  
  
Everybody live, yeah, yeah, yeah, yeah, live  
Live, na, na, na, na, na, na  
Everybody live, come on and sing it like you can now, yeah, yeah  
Live, you better do it while you can now, yeah, yeah  
Dance just to dance  
Yeah, yeah, yeah, yeah  
Come on now, hey  
Do just what you wanna do  
Oh, let the sun come shining through  
Everybody live, ooh, come on, live  
Now, yeah, yeah, yeah, yeah  
Everybody live, sing it with the [Incomprehensible]  
Live, come on and do it while you can now  
Everybody live, live, come on, yeah  
Live, well well well well well well  
Everybody live, clap your hands, come on you can do it  
Live, live
