Disbelief

My Fair Lady

Tell me when you've had enough
I know I need some
Really huh, do you want some of this?
Do you wanna try?
Do you think that you've had enough?
Tell me you're falling in love
But I know that you sleep alone
Really huh, do you want some of this?
Do you wanna cry?
You still think you love me
I asked you something
Since you know everything
Can you believe that shit?
Can you believe that shit?
Tell me you think you are right
I know that you are not
Really huh, do you want some of this?
Do you wanna try?

Do you still think you are right?
I asked you something
You think, you know everything
Can you believe this shit?
Can you believe this shit?
I asked you a question
Since you know everything
I don't believe that shit
Can you believe that shit?
[Incomprehensible]I asked you something
You think, you know everything
Can you believe this shit?
Can you believe this shit?
I don't believe that shit
Can't you believe your shit?
I don't believe your shit
I don't believe
