

# Open Invitation

[Santana](#)

You be you and let me be me  
No strings attached emotionally  
I wanna get a little crazy that's putting it plain  
You got the medicine and I got the pain When you just wanna feel good  
Like the doctor said  
One good dose of loving  
Is gonna straighten out your head You got an open invitation  
On that you can rely  
You got a prepaid reservation  
And that's the only way to fly Let's make love, the feeling is right  
Just passing by like ships in the night  
Oughta get a little friendly there's no time like now  
You bring the attitude and I'll show you how Anytime you're ready  
Anytime at all  
Just come on over  
You don't even have to call You got an open invitation  
On that you can rely  
You got a prepaid reservation  
That's the only way to fly When you just wanna feel good  
Like the doctor said  
One good dose of loving  
Is gonna straighten out your head You got an open invitation  
On that you can rely, oh my  
You got a prepaid reservation  
And that's the only way to fly
