

# My Religion

[Dan Talevski](#)

Broken bottles on the kitchen floor  
As I watch my love drip down your lips  
And we could go all night  
I got my hands, I got my hands on you, youDown on my knees, you're what I've been praying for  
I can feel the heat, this sex is on fire  
And we could go all night  
I got my hands, I got my hands on you, mmmSomething's happening to me (I want you)  
Feeling so high while we do it (I, I want you)  
So addicted to your love and I can't (I want you, I want you)You're my religion (you're my religion)  
You're my religion  
Baby something's happening  
You're my religion (You're my)  
You're my religionI can feel your breathing while you're trembling  
He's watching us as I touch your skin  
And we could go all night I got my hands,  
I got my hands on you, mmmDown on my knees, you're what I've been praying for  
I can feel the heat, this sex is on fire  
And we could go all night  
I got my hands, I got my hands on you, mmmSomething's happening to me (I want you)  
Feeling so high while we do it (I, I want you)  
So addicted to your love and I can't (I want you, I want you)You're my religion (you're my religion)  
You're my religion  
Baby something's happening  
You're my religion (You're my)  
You're my religionSomething's happening to me, and it's taking over  
Feeling so high while we do it  
Yeah, I'm so addicted to your love  
And I can't deny it, hide it, I want youYou're my religion (you're my religion)  
You're my religion  
Baby something's happening  
You're my religion (You're my)  
You're my religion (Don't you wanna know?)Yeah, I'm so addicted to your love and I can't deny it, hide it, I  
want you
