

# Red Flag

## Kittie

I feel trapped and it's all  
In my dirty hands  
These walls are closing in You always were so hard  
To please  
You thought you had me on  
My knees I think I'm going under  
Red flags for all of this You're cold and calculating  
A knife held to my lips  
And this anticipating  
Blade bleeding for a kiss This is the day, and you wait  
Is this fate, laying waste  
And you'll stay here forever  
Stay here forever And all that's left are scars  
And lies  
Whispering while beauty dies I claw my neck for answers  
As last life slips away Take me away
