

The One (Svenstrup & Vendelboe Remix)

Medina

you said so many things so many times before
all your empty words were just a painful cover
you always promised me that it would always be
 together, you & i would be forever
 i was too blind to see you had a hold on me
 and i fell for every lie, you were so clever
 i tried so hard to read the message in your eyes
but i wont let go of what we have togetherthere was a time when i was all alone
 i never opened up until we found each other
 tell me why this has to be so hard
right now i know that we belong right here togethereven if we hurt each other so
 and even when you lie,
 I just close my eyes and let it go
 not afraid to let all my feelings show
 you'll always be the one, one, one, one
 even if i just wanna run away
and even if i hate all the stupid silly words you say
 cant deny with you is where i wanna stay
 cuz baby u're the one, one, one, one, oneyeahh
when you say the words you know i wanna hear
 i forget all the pain that i was feeling
 i want those yesterdays to slowly disappear
 so what u did to me ive already forgiven
you're not the one to blame for all our memories
 and that was long before we ever got together
 you know its you, i guess that it will always be
cuz you and i belong to one anotherthere was a time when i was all alone
 i never opened up until we found each other
 tell me why this has to be so hard
and now i know that we belong right here togethereven if we hurt each other so
 and even when you lie,
 I just close my eyes and let it go
 not afraid to let all my feelings show
 you'll always be the one, one, one, one
 even if i just wanna run away
and even if i hate all the stupid silly words you say
 cant deny with you is where i wanna stay
 cuz baby u're the one, one, one, one, oneoehwww oh ohh
 oehwwwthere was a time when i was all alone

i never opened up until we found each other
tell me why this has to be so hard
and now i know that we belong right here together, babyyoehw heyy yeahh
i'm not afraid to let all my feelings show
you'll always be the one, one, one, one
and even if i just wanna run away
and even if i hate all the stupid silly words you say
cant deny with you is where i wanna stay
cuz baby u're the one, one, one, one, one
