

Change Me

Sanctus Real

And did I change your mind
With what I said last night?
And did I break your heart by straying so far?
From what you have in mind for my life? Won't you change me from who I've been lately?
'Cause I know I'm nothing without you And did my words betray
The patience I once claimed
Can't you see it in my face?
I need your grace And won't you change me from who I've been lately?
'Cause I know I'm nothing without you
And won't you save me from the way I've been lately?
'Cause I can't see living without you So would you speak to me and show me what I need
Is it patience, kindness, all that's in between?
Loving others the way you love me? So won't you change me from who I've been lately?
'Cause I know I'm nothing without you
And won't you break me from the way I've been lately?
'Cause I can't see living without you
And won't you change me from who I've been lately?
'Cause I can't see living without you
