

# Tattoo of My Name

## Kid Ink

Uh, it ain't nothing like a  
Yea  
It's a different kind of trust when I see you got that  
YeaI know it's a different kind of love but ain't nothing like a  
Tattoo of my name, tattoo of my name on you  
It's just a different kind of trust when I see you got that  
Tattoo of my name, tattoo of my name on you  
Forever ever, we're tied together  
Forever, got a tattoo of my name on ya  
Forever ever, we're tied together  
Forever, got a tattoo of my name on yaYea, it makes everything official  
It don't matter whether it's the first, last or initial on that ass  
Legs, lower back of that wedding ring finger  
I appreciate you just for representing me  
Love and the pain, can't believe you was sittin through it  
Friends tried to tell ya that you crazy, don't you listen to em  
We got something special, baby bout it better than Mercedes  
Tatted up, I swear I won't be mad at ya  
Going hard, don't be soft, fuck a flower, get my name on your chest  
It ain't never going nowhere like a stain on a white-tee  
I think that you might be, the closest to wifey  
Ain't nothing to hide, everybody sayI know it's a different kind of love but ain't nothing like a  
Tattoo of my name, tattoo of my name on you  
It's just a different kind of trust when I see you got that  
Tattoo of my name, tattoo of my name on you  
Forever ever, we're tied together  
Forever, got a tattoo of my name on ya  
Forever ever, we're tied together  
Forever, got a tattoo of my name on yaI would never tell you girl to go mess up yo frame  
But it's nothing I could say about a tattoo of my name  
Right there on that spot I see every time you change  
Let me know it ain't no game, got me fuckin with you insane  
Now you sayin' it's my turn, but I don't know if it's much room  
Showin' off to them other bitches, go and flex yo muscle  
It's better than the rain, she said you high off of mushrooms  
Still drippin' wet, it's feelin' like you gon cum soon  
You ain't gotta trip girl, I know where to aim at  
Cock back, tryna hit it where my name at  
It ain't nothing else you gotta say

I know the deal, it's pretty simple how you feel  
Fuck that henna, keep it real I know it's a different kind of love but ain't nothing like a  
Tattoo of my name, tattoo of my name on you  
It's just a different kind of trust when I see you got that  
Tattoo of my name, tattoo of my name on you  
Forever ever, we're tied together  
Forever, got a tattoo of my name on ya  
Forever ever, we're tied together  
Forever, got a tattoo of my name on ya There's nothing I could say about  
I would never tell you girl to go mess up yo frame  
But it's nothing I could say about a tattoo of my name on ya
