

# Willow in the Wind

[Kathy Mattea](#)

We've got a strong love  
And it's a lifelong love  
Me and you And when it's tested  
We can't rest until  
Trouble blows on through Storms of love may try to take us down  
So we gotta learn to bend Like a willow in the wind  
Like a willow in the wind Some hearts are brittle  
Won't give one little bit  
So they break Our hearts are tender  
And when we surrender to  
That old heartache We know love grows truer with the tears  
And we'll stand in sunlight again Like a willow in the wind  
Like a willow in the wind Like a willow, wisp and tall and true  
Stands together in the wind  
Like a willow with arms around you  
We'll sway forever in the wind Storms of love will try to take us down  
So we've gotta learn to bend Like a willow in the wind  
Like a willow in the wind  
Like a willow in the wind  
Like a willow in the wind
