Situation Breakdown

Madcap

No situation, no time for frustration
Let's shake it off, let's try it againI stand witness of destruction in the streets
Blood sheds in the city, shots ring over seas
I stand witness of a broken world, of a dying world
On it's way to self-destructionThis bed's been made, we don't have to lie on it
This world is not like you, this world is not like me
We must unite and build a new nation
This one's failed us, it's failed my generationBetter, stronger, together, forever
A brand new nation
Better, stronger, together, forever
A brand new nation
Better, stronger, together, forever
Is what we needNo situation, no time for frustration
Let's shake it off, let's try it again
Righteous separation and world segregation
Make holy wars between unholy nationsHey, heyDon't wanna be part of this broken world
Let's take the pieces and build a new one, build it strong
Don't wanna be part of this broken world
Let's take the pieces and build a new one, build it strongDon't wanna be part of this broken world
Let's take the pieces and build a new one, build it strong
Don't wanna be part of this broken world
Let's take the pieces and build a new one, build it strongBetter, stronger, together, forever
A brand new nation
Better, stronger, together, forever
A brand new nation
Better, stronger, together, forever
Is what we needHey, heyI see destruction in the streets
I see destruction in the city
I see destruction in the streets
I see destruction in the cityA brand new nation
I see destruction in the city
A brand new nation
I see destruction in the city
A brand new nation
A brand new nation
