

Heart Attack

Wild Rivers

I stepped back just to frame it
And I didn't know too much
Now my eyes tried to cut through lies
I was losing touch Darling I didn't know nothing
Head like a head full of wine
Chained like a curse I was down in the first
You didn't use your eyes Oh my you just gotta take a piece of me
Trying to tease out the other side
Cause darling I just see you've been so sweet to me
I've been waiting on the day all night
Would it kill you for some peace of mine
Would you take me and not look back
Good gracious you're a heart attack We were something like a movie
She was more the show
Spread roots wide in the back of my eyes
And she never let it slow I had my hand full of aces
Ran her fingers down the back of my neck
I stepped back when she laid down that jack
I was losing breath Oh my you just gotta take a piece of me
Trying to tease out the other side
Cause darling I just see you've been so sweet to me
I've been waiting on the day all night
Would it kill you for some peace of mind
Would you take me and not look back
Good gracious you're a heart attack
