This Town

Tyler Steel

Four lane highways are gettin longer
The closer I get to you
Every time I look in my rearview
I see a picture of you

There ain't no backroad in this little town
I ain't been down a time or two.
A shot of whiskey running through my veins tonight
The more I drink the more I think of you
Your memories follow me wherever I go, wherever I go
In this town

Listen and learn crash and burn
lay it all on my chest
Cause I've been down through every last bottle
and I've seen the pain
