

# Superman's Big Sister

## Ian Dury & The Blockheads

Till I met her, I thought I knew the answers  
I thought a bit of treatment was all a body needs  
I'll take you where the haps are  
All the handsome chaps are  
Squeeze you till I make your feelings bleed  
She put me right behind her in fifteen minutes  
She could have had my things off, so sadly was I raised  
I had a lot to learn, dear  
If I'd gone on the turn, dear  
It wouldn't be surprising nowadays  
You know she's Superman's big sister  
Her X-ray eyes see through my silly ways  
Superman's big sister, superior skin and blister  
It doesn't seem surprising nowadays... yeah!  
Superman's big sister  
Superman's big sister  
(oh-oh-oooh-oh)  
Superman's big sister  
(oh-oh-oooh-oh)  
Superman's big sister  
(oh-oh-oooh-oh)  
I said she's Superman's big sister  
It doesn't seem surprising nowadays  
And now I've had the sense to keep her friendship  
And though I nearly miffed it in many little ways  
The story's got no sequel  
'Cause me and her are equal  
Is that so surprising nowadays?  
Because she's Superman's big sister  
Her X-ray eyes see through my silly ways  
I said she's Superman's big sister, his grown up skin and blister  
Is that so surprising nowadays?
