

# Dream Vacation

Christy Carlson Romano

Im cutting school today  
Im gonna get away  
Im leaving now to precise  
Dont that sound nice?  
In a place warm and breezy  
A little piece of paradise Dream vacation  
It's summer time and we're having fun  
Dream vacation  
It's party time for everyone Living hour outside  
Splashing in the ocean's tide  
Or just relaxing in the sun  
And now we're gonna spend  
Sometime with our new friend  
Who knows just might be the one Dream vacation  
It's summer time and we're having fun  
Dream vacation  
It's party time for everyone Walking on the beach at night  
Holding hands, it feels right  
Looking for a shooting star  
Break up that guitar (I wanna dream vacation) Dream vacation  
It's summer time and we're having fun  
Dream vacation  
It's party time for everyone Dream vacation  
It's summer time and we're having fun  
Dream vacation  
It's party time for everyone Dream vacation  
Summer time and it's just begun  
Dream vacation  
Summer time and we're having fun
