

All Clear

Aidan Knight

In time all clear
I'm alone with the thought of it
high outside
it's there and it's gone again
counting it fast and keeping it slowly
time all clear
I'm alone with the thought of it When we see you
we believe it in the end
all things go
When I see it
I believe it in the end
all things go Oh some things get lost
get lost and go missing
wandering off in time
counting too fast
keeping things slowly
slowly in time When I see it
I believe it in the end
all things go
When we see them
we will believe them in the end
all things go
