

# Movie Song

## HeyHiHello

Why don't you take me  
Back to the beginning of this movie  
Before the scenery changed what we could be  
Now, we aren't the same as we were Before the problems  
If I knew any better, I could solve them  
Now the ending is beginning to look grim  
Why couldn't I take time to learn No, it's not real life  
But it's creeping in  
I hate to see you leave me  
Over and over again  
So, reset the lights  
And I'll play along  
When they say action  
We'll leave out the words that don't belong  
Anywhere in this movie song  
Anywhere in this movie song Let's write a sequel  
Based on actual events, places, and people  
You and me, just for instance  
And we fall in love  
There's no giving up in the end  
And I can't take the heartbreak of knowing what's to come  
I'm tearing out all the pages where we come undone  
And all these character flaws become no flaws at all No, it's not real life  
But it's creeping in  
I hate to see you leave me  
Over and over again  
So, reset the lights  
And I'll play along  
When they say action  
We'll leave out the words that don't belong  
Anywhere in this movie song  
Anywhere in this movie song Quiet on the set  
Then we hit our marks  
We've changed the ending to resemble how the movie starts  
Throw away your script  
You won't be needing it  
All these dreams could not exist  
If real love weren't better than this No, it's not real life  
But it's creeping in

I hate to see you leave me  
Over and over again  
So, reset the lights  
And I'll play along  
When they say action  
We'll leave out the words that don't belong  
Anywhere in this  
Anywhere in this  
Anywhere in this movie song Anywhere in this movie song
