

Total Eclipse (1998 Remastered Edition)

Iron Maiden

Cold as steel the darkness waits, it's hour will come
A cry of fear for the chosen worshipping the sun
Mother natures black revenge on those who waste her life
War babies in the garden of Eden shall turn our ashes to ice[Chorus]
Sunrise is gone, freezing up the fires
Sunrise is gone, numbing all desires
Sunrise is gone, Sunrise is gone
Around the world the people stop with terror-stricken eyes
A shadow cast upon them all to crush them like a fly
In the icy rain and whiplashed seas there's nowhere left to run
The hammer blows of winter fall like a hurricane[Chorus]
Around the world the nations wait
For some wise words from their leading light
You know it's not only madmen who listen to fools
"Is this the end" the millions cried
Clutching their riches as they died
Those who survive must weather the storm
Gone are the days when man looked down
They've taken away his sacred crown
To be so free, it took so long
It's not the journeys end, it's just begun
