## **Something Special**

## **Aubrie Sellers**

We could go down to the lake
Throw off our shoes
Jump into the water like there's nothing to loose
Sky don't get no bluer, love don't get no truer than this
Then you could wrap me in a blanket
And steal a kiss
Then we could go into town
To that little coffee shop
Go sit under the stars, up on the roof top
Spend an hour talking, watch the people walking by

When the coffee gets colder you can just hold me tightSomething special, something we don't do all the time Something special, cause I am yours and you are mineA little celebration, just because we can

Walking by your side with my hand in your hand
Make a little history; make the kind of memories that last
Stop and smell the roses

you know they go so fastSomething special, something we don't do all the time Something special, cause I am yours and you are mine
