

Broken

Shekinah Glory Ministry

I remember when I told God Yes
I was eager to do what He told me too in obedience
Looking out in the crowd I see eyes closed tears falling
Hands lifted people praising and worshiping too
They didn't see me
They only saw You
It felt good but something was missing
See I?m empty inside and I?m wondering why
Will I ever feel
What they felt From me
I didn't know the price of YES
Would cost me so much

I've been broken and bruised
Wondering will God still use
Crying out to you
Got nothing left to loose
Father hear my plea
Need You to rescue me
Cause I?m broken

I've been broken and bruised
Wondering will God still use
Crying out to You
Got nothing left to loose
Father hear my plea
Need You to rescue me
Cause I?m broken

I've got something to say not sure where I start
I?m afraid to begin it?s all falling apart
See I thought because I was working For You
everything wrong You would undue but it wasn't quite true
It?s hard to admit that I can?t feel you like I use too
Cause I?m in ministry and I?m messed up
I?m confused with no one to talk too
I need a breakthrough I need a breakthrough cause this the thing You've anointed me to do

I've been broken and bruised
Wondering will God still use

Crying out to you got nothing left to loose
Father hear my plea
I need You to rescue me
Cause I?m broken

I?m broken
I need You to rescue me

I?m broken
Father speak a word to me

I?m broken
I need You to rescue me

I?m broken
Father speak a word to me

I?m broken
I need you to rescue me

I?m broken
Father speak a word to me

I?m broken
I need You to rescue me

I?m broken
Father speak a word to me

I?m broken
I need you to rescue me

I?m broken
Father speak a word to me

I?m broken
I need You to rescue me

I?m broken
Father speak a word to me

Got you just like I want you
Got just where I need you
Welcome back to the way it used to be
When it was juts you and me

Got you just like I want you
Got just where I need you
Welcome back to the way it used to be
When it was just you and me

Got you just like I want you
Got just where I need you
Welcome back to the way it used to be
When it was just you and me

Got you just like I want you
Got just where I need you
Welcome back to the way it used to be
When it was just you and me

Cause there's a lot left in you
To do for me ; now that you're broken

He says there is a lot left in you to do for me
Now that you're broken

Oh I hear You how can You use me
When you know this and that about me

But there's a lot left in you to do for me
Now that you're broken
