Cardinal Motion

Crowfield

When I return, wanna feel like a man
Steal away 'til the morning comes
My heart in my hands
The warmth of the Sun touching our skin

And when mourning our cause, wanna stand up and smile
Say hello to the good day
Without making plans
For saying goodbye to all of my friends

There's no way to know
Who's next in line, brother
Don't waste your time
And so far I've found, when God shakes the ground, brother

We all fall down softly singing to ourselves

Yes, all our goodbyes
Are movements of water from the cardinal motion
So kiss me and know that the salt from our tears will
Will meet in the ocean

When I return, wanna feel like a man
Steal away 'til the morning comes
My heart in my hands
The warmth of the Sun touching our skin

There's no way to know
Who's next in line, brother
Please, don't waste your time
And so far I've found, when God shakes the ground, brother

We all fall down softly singing to ourselves

Yes, all our goodbyes
Are movements of water from the cardinal motion
So kiss me and know that the salt from our tears will
Will meet in the ocean

Yeah, I will be there...
