Sun

Rusty

Her feet hit the ground
There's people all around
She never wears makeup
It never does her proud
She works radio, late night radio
She don't like the shit she's playing
She does it for you kids
The sun no favour
The sun no favour
She says lets have a drink
I need some time to think
We go down to dinner
Sunday beer is cheap
She works radio, modern rock and roll
She don't like the shit she's playing
She does it for the kids
The sun no favour
The sun no favour
We go down to her place
She has a real cool space
She got it down in Parkdale
The rent is great
She works radio, oldies rock and roll
She don't like the shit she's playing
She does it for you kids
The sun no favour
The sun no favour
