

New Song (For the Morning)

Hot Tuna

Looked outside my window
Fog came up to play
That gray outside is around my head
Looks like it's there to stay
Looks like it's there to stay
Looks like it's there to stayCan't you see I love you
I want you more and more
I see you here most every day
I don't know where you are
I don't know where you areTime goes on and I get older
What am I going to do?
My mirror face keeps getting colder
My eyes still look for you
My eyes still look for you, now
Said my eyes still look for youSun came out this morning
Highway showed my way
Cracks in the sand pulled me into the sea
Washed my cares away
Washed my cares away
Washed my cares away
