

# Time Again (Ryan Mathiesen Remix)

Jan Blomqvist

I came at 10  
You left at 8  
Time time again  
I came too lateRealize that things just weren't working  
Pretending that we were both blind  
A billboarded couple blank frozen  
Lunch on the terrace, like the dead we dineWhen I wanna sleep you just wakin  
When I set a fire you complain 'bout the cold  
Just like our sunny vacations  
Stunning pictures they'll stay on the rollThrough love to hate  
Goes round again  
Wake up too late  
No sense or planShiftless and weak  
Comfortably numb  
Words would not speak  
Not leave my tongueFinger rests over the button  
Blank looks whiter than white  
You said it all, you said nothing  
The end comes without a fightWe were close at the start without thinking  
Caught up after one Berlin night  
Then red flags and warning lights blinking  
To cut the ties, time was just never rightYou left at 8  
I came at 10  
You didn't wait  
Time and time againObviously  
We weren't great  
But you areWe weren't enough  
But you should know  
You areIt wasn't right  
Its never but  
You areYou are  
Yes, you areI came at 10  
You left at 8  
Time time again  
I came too lateYou left at 8  
I came at 10  
You didn't wait  
Time and time againTime and time again
