

Loverman

[Robin Thicke](#)

I want to use my hands on your body,
I want to explore your rivers and your valleys.
From the top of your mountain to the depths of your sea,
I want to fuel the fire inside of me.chorus
I'm your loverman, digging as deep as I can
I'm your loverman and I try for. I try for
I'm your loverman, going ask for best I can
I'm your loverman and I try for. I try for
I want to look in your eyes, pass the mask you hide behind
I want to know all of you, what makes you smile what makes you blue.
You know I want to please you, take you so high. Forget that you can't fly were just spaceships in the
night.Your ripping your clothes off of the past
making a new path and a brand new day
baby come with me I'll take you awayI'm your loverman, digging as deep as I can
I'm your loverman and I try for. I try for
I'm your loverman, going ask for best I can
I'm your loverman and I drive for. I drive forje t'aime mi amore, je t'aime mi amore
je t'aime mi amore, je t'aime mi amore
From the garden in Versailles, to the desert in Duba
From the top of the Great Wall we can touch the sky.chorus 3X
I'm your loverman, digging as deep as I can
I'm your loverman and I try for. I try for
I'm your loverman, going ask for best I can
I'm your loverman and I try for. I try for
